CAREER OBJECTIVE

Detail-oriented B.Tech student specializing in Artificial Intelligence and Machine Learning with a strong foundation in Python, Java, and C. Good in web development using HTML, CSS, and JavaScript, and passionate about learning new technologies and solving real-world problems. Seeking an opportunity to apply my skills and grow professionally.

INTERSHIPS

Assistive Infotech Private Limited

December 2025 – March 2026

- Completed a 16-week internship focused on Artificial Intelligence and Python programming
- Gained hands-on experience in machine learning, data preprocessing, and model building
- Worked on real-time projects involving data analysis and feature extraction
- Developed problem-solving and analytical skills

ExcelR Company

May 2025 – July 2025

- Completed a Python Full Stack Internship using HTML, CSS, JavaScript, and Python
- Improved problem-solving, debugging, and teamwork skills

SKILLS

- **Programming Skills** : C language, Python, Java, DSA (basics), JavaScript
- **Web Development** : HTML, CSS, Responsive Web Design
- **Database** : MySQL, SQL
- **Soft skills** : Problem Solving, Leadership, Adaptability, Time Management, Teamwork

PROJECT

Customer Satisfaction Prediction System

2025

- Developed an XLNet-based trivariate classification system for customer satisfaction prediction using text mining
- Implemented NLP preprocessing techniques such as tokenization, stop-word removal, normalization, and lemmatization for text cleaning
- Performed Exploratory Data Analysis (EDA) using histograms, word clouds, and class distribution analysis to understand dataset patterns
- Extracted contextual text features using the XLNet transformer model for improved sentiment and intent understanding
- Trained and compared machine learning models including QDA, LDA, SGD, NC, and Histogram Gradient Boosting (HGB)
- Built a Tkinter GUI application for dataset upload, preprocessing, model training, prediction, and result visualization
- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, ROC Curve, and Confusion Matrix
- Generated automated predictions for Ticket Priority, Satisfaction Rating, and Resolution Recommendation to support faster decision-making

CERTIFICATIONS

- | | |
|--|------|
| • Introduction to Web Development with HTML, CSS, JavaScript - IBM offered through Coursera | 2024 |
| • Hands-on Introduction to Linux Commands and Shell Scripting - IBM offered through Coursera | 2024 |
| • Introduction to Soft Skills - TCS company | 2024 |
| • Cloud Computing Fundamentals - Course at GDSC Aditya Institute of Technology & Management | 2023 |

ACADEMIC QUALIFICATION

B.Tech in Artificial Intelligence and Machine Learning	2022 – 2026
---	-------------

Geethanjali Institute Of Science & Technology, Nellore , CGPA: 9.15

Intermediate (MPC)

2020 – 2022

Narayana Junior College, Nellore

Marks: 956
